1. Retrieve data from web page using URLLIB and print the frequency of words from that page.

```
In [48]:  # import urllib.request
          counts=dict()
          web=urllib.request.urlopen('https://en.wikipedia.org/wiki/Periyar')
          for line in web:
              words=line.decode().split()
              for word in words:
                  counts[word]=counts.get(word,0)+1
          for i in counts.items():
              print(i)
```
